the way it is
the way it goes
the way you like it to be
arrive alone
leave that way
stumbling out on to the street
hear a tune
its your favourite song
start singing the words on your own
walk away, sleepy eyes
truth will make peace with the clock
ticktock
wont stop, thinking
love you I, miss you I, say goodbye
love you i, miss you I, say goodbye
love you I miss you I, say goodbye
love you, I miss you, goodbye
window shop designer lights
check your hair
reflections not right
saw a silver shirt, thai i could swear is brown
and a beggar with his lovers frown
so you blew your chance
write it in your book
when a motto took a second look
if your old and gray
who will hold your hand
when you need to talk, who will understand
ticktock
I wont stop, thinking
love you, miss you I, say goodbye
love you I, miss you I, say goodbye
love you I miss you I, say goodbye
love you, I miss you, goodbye
love you, I miss you ...
I see a bedroom
i look inside
i bet they're warm and safe
warmer and safer than me
