Let your sun shine by Frank Ashton
Duet met Mariska van Kolk

They say dreams don't come true
Especially about you
But here you are by my side
You prove that dreams comes true

Let your sun shine on forever
Leave the rain far beyond the horizons
You have brought me love and power
Don't let it ever be destroyed by one
Taste the wine of my sweet loving
Let it get into your tender heart

There's no more loneliness
And no more sads and blues
Now I could never leave my life
Baby without you

Let your sun shine on forever
Leave the rain far beyond the horizons
You have brought me love and power
Don't let it ever be destroyed by one
Taste the wine of my sweet loving
Let it get into your tender heart

Let your sun shine on forever
Leave the rain far beyond the horizons
You have brought me love and power
Don't let it ever be destroyed by one
Taste the wine of my sweet loving
Let it get into your tender heart
Taste the wine of my sweet loving
Let it get into your tender heart
