Each night, I sit and dream  
of the stars I see in magazines.  
I love to lose myself  
in the stories of the lives they lead, yeah.  
Why can't I be like them,  
living life of fortune and fame?  
I know I've got what it takes,  
I just gotta start on my way!  
I wanna be a star, star, star,  
I wanna have my name up in lights.  
I wanna be a star, star, star,  
I'm gonna blaze across the sky like a meteorite  
I wanna be a star, star, star,  
I wanna have my name up in lights.  
I wanna be a star, star, star,  
I'm gonna blaze across the sky like a meteorite.  
My fans will truly adore me,  
everytime I dance and sing my songs.  
I'll ride in a big fancy car  
and take all my friends along.  
All 'round the world I'll go,

giving shows from east to west.

(with my Sailor Scouts)

Every night I'll step on the stage,

the crowd will scream I'm the best!

I'm gonna be a star, star, star,

I'm gonna be the best in the world.

I'm gonna be a star, star, star,

I'm gonna be the absolutely most famous teenage  
girl!

I

I wanna be

a star, star (I wanna be)

I wanna be star.

Sailor Moon (spoken)

On behalf of the Moon, I shall sing to right wrongs and  
triumph over evil. With my friends Sailor Venus, Jupiter,  
Mars, and Mercury, we'll make the world a better place  
for all people!

I wanna be a star, star, star.

I wanna have my name up in lights

I wanna be a star, star, star

I'm gonna blaze across the sky like a meteorite

Yeah, yeah!

I wanna be a star (I wanna be a star)

I wanna be a star (I wanna be a star)

I wanna be a star
