Got up this morning,
On the right side of my bed,
With all these crazy thoughts,
Screaming through my head.

I can't wait to see,
What this world holds for me.

Oh..... It's a new day,
Oh..... It's a new day.

And when I see you,
Any time or any place,
You are the reason,
For the smile on my face.

'Cause you make me feel,
All my dreams can be real.

Oh..... It's a new day,
Oh..... It's a new day.

It feels so good to be alive,
Even if a little rain should fall,
'Cause every moment,
Brings a new surprise to us all.

Oh..... It's a new day,
Oh..... It's a new day,
Oh..... It's a new day,
Oh..... It's a new day.

Here in you I found a friend,
You'll be with me till the end,
Oh..... It's a new day.
