Oh baby, you know I hate to beg  
And I really hate to rush you girl  
We've been knowin' each other for so long  
And I really think it's time to let go, baby

Oh baby, don't you feel my heart  
It's missing some excitement and you're the missing  
part  
You're the missing part that can heal my lonely nights  
You're the missing part that's makes my day so bright  
Can we be lovers?

Can we be lovers?  
Can we be lovers?  
You're the only one I need in my life  
Can we be lovers?  
Can we be lovers?  
Can we be lovers?

Can't you feel my love, it's calling you  
To a romantic rendezvous  
I believe every heart wants to feel real love  
I don't think true love is a mystery, it's right here for  
you

Can we be lovers?  
Can we be lovers?  
Can we be lovers?

Please be careful, baby, how you talk to me  
'Cause I have a fragile heart and it's broken  
[Incomprehensible]  
And if it's broken I may never love again  
And it will be so sad, sweet darling  
To live without my friend

Can't you feel my love it's calling you baby  
To a romantic rendezvous  
Well, each and every heart wants to feel real, real love  
I want you to know that my love is here for you

See let me in your heart

You're the only one I want  
In my life, in my life  
In my life, in my life, life

Can we be lovers?  
Can we be lovers?  
You're the only one I need

Can we be lovers?  
Can we be lovers?  
Can we be lovers?

Can we be lovers?  
Can we be lovers?  
You're the only one I need

Can we be lovers?  
Can we be lovers?  
Can we be lovers?

Can we be lovers?  
Can we be lovers?  
You're the only one I need

Can we be lovers?  
Can we be lovers?  
Can we be lovers?

Can we be lovers?  
Can we be lovers?  
You're the only one I need

Can we be lovers?  
Can we be lovers?  
Can we be lovers?

Can we be lovers?  
Can we be lovers?  
You're the only one I need
