You i know im no beginner, my hearts been to the wall
I'm a tried and true romantic, who's seen and done it
all

When you walked into my life, suddenly i knew
All the love i had inside, was leading me to you

In my time, i've lived and loved so much
Through each high and low, i let my heart be touched
In my time, there isn't much i've missed,
I've seen love come and go, but heaven knows, i've
never loved like this
In my time

After all that i've been through, i'm in love with you

I've won some and i've lost some, but us dreamers
don't complain
We keep reaching out for passion, no matter what the
pain
When i looked into your eyes, it all fell into place
I found what i was searching for, shining in your face

In my time, i've lived and loved so much
Through each high and low, i let my heart be touched
In my time, there isn't much i've missed,
I've seen love come and go, but heaven knows, i've
never loved like this
In my time

After all that i've been through, i'm in love with you

In my time, i've lived and loved so much
Through each high and low, i let my heart be touched
In my time, there isn't much i've missed,
I've seen love come and go, but heaven knows, i've
never loved like this
In my time

After all that i've been through, i'm in love with you
