You I love, yes it's you I love,
Yes, my dear it's you I love, only you, only you can make
me happy

At first I wasn't sure, I thought that I was infatuated,
But you stopped right by me
You had patience and you waited, yes
I used to doubt you
But you see I was only doubt myself
I was so insecure
You gave me friendship and then, and then you gave
me help

And it's you I love, yes, it's you I love,
Yes, my dear, it's you I love,
Only you, only you can make me happy

You understand me, and baby through all my ups and
downs one thing I like about you
You took it all, yes you took it all and then you stayed
around
While I was away, ooh I missed you so much each day
And I just wanna tell you, I wanna tell you how I feel,
how I feel, how I feel about you, girl

It's you, you that I love, yes, it's you I love, oh yeah
Yes, it's you that I love,
Only you, only you can make me happy, make me
happy
You, it's only you, nobody else can make me feel the
way you do

It's you you that I love,
Only you, only you can make me happy, make me
happy
You, baby it's you, only you can make me happy,
You..yes, it's you that I love, ooh
Only you, only you, only you

See it's you that I love, nobody else only you can make
me happy

You that I love, see it's you that I love oooh

It's you I love, and I don't mind, I don't mind
Say it's you I love, nobody else can make me feel the
way you do, baby
Talking 'bout you..nobody else.. same as you do
Stay with me, stay with me I wanna give you my love,
baby
Stay right here, don't you leave me, don't you leave
me,no
Only you.
Only you
Only you...
