I'm on my way  
With my roses and boxful of sweets  
I had it all memorized the lines in  
My head  
Thinking I'll be winning your smile  
Once again  
But when I saw you  
I realized how I am ashamed of myself  
My mouth has failed to say the  
Things I just can't express  
Afraid to say things I might regret  
What is there to do when I did  
Something wrong  
Didn't mean to hurt you  
But it took so long to say I'm  
Sorry... I'm sorry  
Say you won't ever leave me down  
I'm sorry
