I don't want to say goodbye
Let the stars shine through
I don't want to say goodbye
All I want to do is live with you

Just like the light of the morning
After the darkness has gone
The shadow of my love is falling
On a place where the sun always shone
Don't you know that's where our hearts both belong?

'Cause I don't want to say goodbye
Let the stars shine through
No, I don't want to say goodbye
All I want to do is live with you

Together our two hearts are strong
Don't you know that's where our hearts both belong?

'Cause I don't want to say goodbye
Let the stars shine through
I don't want to say goodbye
All I want to do is live with you
All I want to do is live with you
