This time I thought I'd listen and the story goes...
I am the same without medicine
I can't pretend it never ends

I'm fine, I'm fine
These words are all I have to hide behind
So get behind me, you have no right to say..
I shut my mouth and walk away from the memory game
So don't forget, don't forget I am the reason

Long lasting this obsession from sleepless mays to
denver cold
Somewhere in-between, I threw myself away

Someday you'll understand that everything is A.O.K.
Someday you'll understand that everything is A.O.K.

I shut my mouth and walk away from the memory game
So don't forget, don't forget I am the reason
(It's funny when you say you're A.O.K.)
(It's funny when you say you're A.O.K.)

I'm fine, I'm fine
These words are all I have to hide behind
So get behind me, you have no right to say..

I shut my mouth and walk away from the memory game
So don't forget, don't forget I am the reason

I shut my mouth and walk away from the memory game
(It's funny when you say you're A.O.K.)
So don't forget, don't forget I am the reason
(It's funny when you say you're A.O.K.)

Someday you'll understand that everything is A.O.K.
(you're A.O.K., you're A.O.K.)
Someday you'll understand that everything is A.O.K.
(you're A.O.K.)
