When I was younger I fell in love with the girl next door
Back to the beat yo back to the beat of 1984
We had beat street we had breakin' 1 and 2 electric
boogaloo dude it was cool
We'd bust out the cardboard in the backstreet by the
drugstore just me and you
Afterschool

You said I did the worm better than anyone that you
knew
Breakin' with you was the best time of my life
I wanna breakdance yeah I wanna get down with you

Let go of everything
Let your body tell the people that you know
You've got soul
Yeah you've got soul
