Magnetic chemistry, you and I can't you see,  
We would be so right,  
Many others come around, you're the only one I want  
around,  
You stay on my mind,  
Hold up let me keep my cool, baby I'm so into you,  
Don't wanna give it up too soon, (not too soon) no not  
too soon,  
If you play your cards right, we could both see  
paradise,  
It's all up to you,  
Cause every single night I swear I dream of you,  
Baby you're my heart, you got my desire,  
And even though I try, can't find words to tell you,  
What it is I truly feel inside,  
All I wanna do is give you all of me, (all of me),  
Just promise you won't change,  
Boy I swear, kisses never taste so, kisses never taste  
so sweet,  
(then what you give to me)  
Kisses never taste so, kisses never taste so sweet,  
Boy they never taste so sweet,  
You come closer, I get shy,  
You can see it in my eyes, way too much to hide,  
You beg, let me stay,  
Are you gonna be the same, when you get what you  
want,  
Oh boy, why did you have to turn me on, cause now  
you're making it hard to front,  
Cause every single night I swear I dream of you,  
Baby you're my heart, you got my desire,  
And even though I try, can't find words to tell you,  
What it is I truly feel inside,  
All I wanna do is give you all of me, (all of me),  
Boy I swear kisses never taste so, kisses never taste so  
sweet,  
Kisses never taste so, kisses never taste so sweet,  
(boy they never taste so sweet),  
Then what you give to me,  
Never taste so, never taste so sweet
