Let's Make Noise
Let's make noise in the bathroom
Make everyone wonder what's going on
Let's make noise in the bathroom

Come on pretty baby now you won't regret
Get ready, on you mark, get set
Let's go down the hall and get real wet
I'll show you a time that you won't forget

The only thing that's wasted here is our time
These greeks aren't friends of yours, and they're no
friends of mine
So let's take off all our clothes, and leave them all
behind

Let's make noise in the bathroom
Make everyone wonder what's going on
Let's make noise in the bathroom

The time is right for making romance
'Cause the rest of these fools don't stand a chance
They won't even start to take down their pants
Come on with me and do the naked dance

The only thing that's wasted here is our time
Everybody's passed out for drinking strawberry wine
They Should have never bothered with our kind

Let's make noise in the bathroom
Make everyone wonder what's going on
Let's make noise in the bathroom
