verse one

Takin' out this time
to tell you that I'm
done with all the fear that leaves the tears from all the
pain
with clarity around
my heart & soul falls in line
and I know all is fine cuz for every loss, there's a way to
gain
child the natural fact is
I can't pay my taxes
bills stacked high in masses, but I won't lose a wink of
sleep
cuz better days are made within
you can quickly count to ten
like a pebble in a coastal sand
this here don't mean shit to me

chorus

everybody hands up(high)
yeah it's goin' down right(that's right)
even when you're feelin' low
just remember you can rock with me
cuz the world didn't give it
and the world can't take it
when the winds of a storm blow
just let it go
put it in the wind
(hey, just let it go)
put it in the wind
(front, back, side to side)

verse two

I'm talkin' to the dreamers
the true to self believers
whether takin' chances on the block
or grindin' out your nine to five
tryin' to get that money(get that money)
you just want the life, milk and honey(you just want the

life)
but you just gotta hold your head
cuz in time you're gonna win
chorus

rap

put it in the dungeon, pass it all around
why you bein' stingy for
people bout to drown
you been tryin' for the answers, but they can't hear the
sounds
when the sign's dead in front of em
like get free now
from the words of a cool ass ni**a I once knew
life's too short lil' mamma do you
everything's goin' up
it was once low as tombs
just remember hold your head
be safe by how you move
it's a cold ass world, but your girl on fire
stay sucka free, get money, live fly
all these worries in the world ain't gon worry me out
sip somethin' out my cup, blow the smoke in the sky
and I'm bangin' out a stream
just to get me high
Bob Marley say everything would be alright
and I'ma be alright
and you gon' be alright
and we gon' be alright
for real
repeat3X put it in the wind
(front, back, side to side)

verse three

takin' out this time
to tell you that I'm done with all the fears that leaves
the tears from all the pain
child the natural fact is
I can't pay my taxes
bills stacked high in masses, but it don't mean shit to
me
