Transmission incoming from higher command
What are my orders today
You want me to eat from a garbage can
Yes sir, i hear and obey

I've been on this mission all my life
For zero pay, but that's okay

The voice in my head controls me
It keeps me from feeling lonely
The voice in my head controls me
A mission for me and me only
One agent alone in your nation
My specialty's infiltration
They're coming to capture and hold me
The voice in my head just told me

Undercover in a land of enemy spies
I live disguised as a bum
Primary targer, discovering lies
What will their purpose become

I've been on this mission all my life
For zero pay, but that's okay

The voice in my head controls me
It keeps me from feeling lonely
The voice in my head controls me
A mission for me and me only
One agent alone in your nation
My specialty's infiltration
They're coming to capture and hold me
The voice in my head just told me
