She doesn't look, she doesn't see  
Opens up for nobody  
Figures out, she figures out  
Narrow line, she can't decide  
Everything short of suicide  
Never hurts, nearly works

Something is scratching  
Its way out  
Something you want  
To forget about

A part of you that'll never show  
You're the only one that'll ever know  
Take it back when it all began  
Take your time, would you understand  
What it's all about?  
What it's all about?

Something is scratching  
Its way out  
Something you want  
To forget about

No one expects  
You to get up  
All on your own with  
No one around
