Take your eyes off me
There's nothing here to see
Just trying to keep my head together
And as we make our vow
Let us remember ho
There's nothing good that lasts forever

Time out on the running boards
We're running
Through a world that lost its meaning
Trying to find a way to love
This running
Ain't no kind of freedom

Feel the touch of grief
You stand in disbelief
Can steal the earth from right beneath you
And falling in so far
They know just where you are
Yea but there ain't no way to reach you

Time out on the running boards
We're running
Through a world that lost its meaning
Trying to find a way to love
This running
Ain't no kind of freedom
Freedom freedom
Time out on the running boards
We're running
Through a world that lost its meaning
Trying to find a way to love
This running
Ain't no kind of freedom
Freedom
