"Lovers"

Visit "[Lovers](#)" on MotoLyrics.com

We are lovers girl
Me and you
White faced lovers girl
You know that its true

We got through the winter time
'Till the spring sun starts to grow
I'm your white faced lover girl
Oh, don't you know

You're so warm with me
I never feel the cold
What have you done with me?
I've never felt so old

We got through the orange summer
Stood and watched the red leaves fall
Maybe by next summer time
We'll have forgotten it all

We are lovers girl
Me and you
Small faced lovers girl
You know that its true

We get through the orange summer
Stand and watch the gray leaf fall
Maybe by next summer time
We'll have forgotten it all

Maybe by next summer time
We'll have forgotten it all
