You turn out the light  
And the dark sucks on the embers of the fire  
My heart smoulders in the night  
And these tumbling boulders of desire  
Come rolling out the shadows in me  
Rolling out the shadows in me  
Rolling out the shadows in me

You say I thought time was meant to take away the  
hurting  
As your lonely silhouette closes the curtain  
Back on the road destination uncertain  
So let's get in this car and drive  
And this feeling I feel so strong  
So powerful it can't be wrong  
Now the whole frosted night is just a song

A song for you  
A song for you  
A song for you

Now the moon is splashed right over the street  
Like my tears on your thighs so pale  
It's just you and me in the sheets  
And the whole wide world is just a jail

When you're away from me  
You're away from me  
You're away from me

And it's rolling on by  
Here come the night  
You turn out the light  
And the dark sucks on the embers of the fire  
My heart smoulders in the night  
And these tumbling boulders of desire  
And we're rolling  
And we're rolling  
Rolling rolling rolling  
Rolling rolling rolling rolling rolling  
Ahh rolling

Rolling rolling rolling  
Rolling out the shadows in me

You turn out the light
