I'm the guy in the town
And you know they'll go on and leave me behind
They're the gang in the town
That you don't wanna meet
Least not late at night
Have you ever seen the way things go today?
1, 2, 3, 4!

There's a guy in my class
And I don't wanna say that I think that he's right
There's a girl in my class
And I'm not gonna say that I think that she's hot
Have you ever seen the way
Things go today?

There's a guy in my class
And I don't wanna say that I think that he's right
There's a girl in my class
And I'm not gonna say that I think that she's hot
Have you ever seen the way
Things go today?

And it feels like we're together
When we're driving home together
And it feels like every morning breaks out
And it feels like we're together
When we're driving home together
And it feels like every morning breaks out

I'm the guy in the town
And you know I'm the one that will always be right
And this girl in my class
You will never believe all the things I tried
Have you ever seen the way
Things go together?

And it feels just like I'm better
When we're driving home together
And it feels like every morning breaks out
And it feels just like I'm better
When we're driving home together

And it feels like every morning breaks out

And it feels like we're together
When we're driving home together
And it feels like every morning breaks out
And it feels like we're together
When we're driving home together
And it feels like every morning breaks out

And it feels like we're together
When we're driving home together
And it feels like every morning breaks out
