You live in a world that is just Most of the people who  
seem to be Way too strange to conceive Angel's  
dressed in black Lost in the dark - Are they all too real?  
Always a good time, never lonely Suddenly realized the  
blood red tears from my eyes There was nothing much  
I could do But watch you die Time after time Metal  
Icarus Burnt your wings on the sun First time I met you I  
wanted To be by your side Those days are gone And let  
my hair grow long But I still fly by night Bringing life to  
the dead Even through times when I felt lonely  
Suddenly realized the blood red tears from my eyes  
There was nothing much I could do But watch you die  
Burnt your wings on the sun Metal Icarus Time after  
time Night after night Metal Icarus Upon forces  
unknown I can still feel the windy heights Ah! Those  
were the years Against my skin And if I close my eyes  
I'm flying over hills!
