Bittencourt)

Stand away the dreaded burning fire

Will leave its mark for those with no desire

Stand in front of the whole creation

Face the people starved like worms

Still I'm begging for comprehension

From the ones who rules us all

In this field the dying embers soil

All around we mourn

Oh, here they come again

[Now they're coming more aggressive

Tearing down our only chances]

The stars can't find the purple sky

[Loneliness will find its reason

treasured seed for every season]

Long for the day be back someday

And the church

[Church is selling consolation

killing Jesus for salvation]

Don't let us die

Let me rest in peace

Away, a while
Our smile taken from
The hearts of broken souls
Stand away from the fire
Destined by the fate
Let those sinners pay how they steal
For on the judgement day
How they yield
Stand in front of the whole creation
Face the people starved like worms
Still I'm begging for comprehension
From the ones who rules us all
On this field the dying embers soil
All around we mourn
Oh, here they come again
[Now they're coming more aggressive
Tearing down our only chances]
The stars can't find the purple sky
[Loneliness will find its reason
treasured seed for every season]
Long for the day be back someday
And the church
[Church is selling consolation
killing Jesus for salvation]
Don't let us die

[Taking all in desperation

leave me now to rest in peace]

Rest in peace

Let me rest in peace
