so am i flip again let it in now and then,
that don't mean anything,
I'm still good

I look around me,
how did i get here?
now thought out my plans

I ended up in a situation
put it my hands
I think about it when
I wanna give up
how to keep on goin'
how to keep my chin up
some how i know it
I'm not gonna give up,
never gonna give up

so am i flip again let it in now and then,
that don't mean anything,
I'm still good
tryin' to beat my fans
when i fall in cement
pick on them,
but with everything,
I'm still good
