Ahhhhh... Ahh...

When the darkness leaves you lonely  
Or the world tries to push you away  
When your sky is looking troubled  
You can count on me cause I'm gonna stay  
(I'm gonna stay)

Put your worries in my pocket  
I got a key so we can lock it  
I swear that I wont let them escape

Love (Love)its always worth it  
Love (Love)everyone deserves it  
It's the friend that holds you're hand  
When nobody understands  
Love (Love) it wants to heal you love (Love)  
And see the real you  
But you have to open up when you need a little love

Na na na, na na na... Yeahh...  
Na na, yeahh, na na na...  
Ohhh...

If there something you're in need of  
(you're in need of)  
You only have to let me know  
I've got a shoulder you can lean on  
And I'm always (always) Right up the road

Put your fears in my pocket  
I've got a key so we can lock it  
You know I (Know I) wont let them escape

Woahhh...

Love (Love)its always worth it  
Love (Love)everyone deserves it  
It's the friend that holds you're hand  
When nobody understands  
Love (love) it wants to heal you love (Love)

And see the real you  
But you have to open up when you need a little love

Every night when your heart is praying for peace  
From the noise in your head...yeahh  
There's a light that is yours to keep  
That's brighter than all the rest

Love (Love)its always worth it  
Love (Love)everyone deserves it  
It's the friend that holds you're hand  
When nobody understands  
Love (love) it wants to heal you love (Love)  
And see the real you  
But you have to open up  
When you need a little love  
Yeah...oh...  
When you need a little love  
Woahhh... Yeahhh...  
Need a little love
