You've got a souped up automobile  
You're a regular demon on wheels  
You get drunk with the boys  
You go out and make lots of noise  
You've got back tires four feet wide  
Flaming decals on the side  
Peeling out at the light  
Drag racing down the pike

Trans Am  
Ain't no car that's faster than a  
Trans Am  
Call you Speed Racer 'cause you got a  
Trans Am

Cruising around with your immaculata girl  
Squeal your tires, take here for a whirl  
She loves you but she's second by far  
Everybody knows you're in love with your car  
Cruising with the boys see a GTO with mags  
Ask the driver if you wanna drag  
He was good but not good enough  
You left him in a cloud of dust

See a Camero who thinks that he's cool  
You ask him to drag 'cause he'll look like a fool  
Sparks and pebbles begin to spew  
You bit off more than you can chew  
100 mph you hit a tree  
What was left wasn't pretty to see  
Johnny's through being a star  
He's lost his life and he's totalled his car
