You're not mine no more,
but I still miss you all the time.
So I've learned to accept that there's
no other soul that could fill this hole in me.

You ought to know now
I am here you're not alone
and I love that you're different and
strange I'm the same, love keep on feeding the flame
with me

I know we can make it through

I can't let go cause' your love's the only
love I know. I am yours through
health and sickness, honestly;
You're the best that ever happened me.

You see right through me like some kind of x-ray.
I dream and I believe I'll marry you some day.
I've been yours since the day I met you.
Please stay with me.

I know we can make it through

I can't let go cause' your love's the only
love I know. I am yours through
health and sickness, honestly;
You're the best that ever happened me.

Hold on, I know it hurts real bad sometimes but we'll
get through it.
Hold on, you know I'm always by your side, for the rest
of your life.

I can't let go cause' your love's the only
love I know. I am yours through
health and sickness, honestly;
You're the best that ever happened me.
