Johnny has a dream to make the scene
Where all he has to do is make girls scream
Unbuckling his belt will surely make them melt
Turning butter into cream

For now, he's an unknown who's content to take orders
Stocking magazines, turning fives into quarters
Soon he'll make them see that he's got what it takes
When they get a look at his 14 inch snake
He's got a job in a porno shop, where he mops up for free
Oh, it may suck now, but he knows somehow
He'll see his face on a T.V. screen
