With the night
Trying to find the treasure
If you just keep on the light
People go for the flow
For many beats will measure will determine where we
go
We don't need no Mercades
We don't need no Cadillac
We don't need no Harley baby
To put us on the right track
CHORUS:
Though I know my world may change
It's all been fun and games
And I know adventure is just the way to live
I've got to let the gypsy dance
Forget about the past
One answer to a question and
(What's at the end of the rainbow?)
At the end of every rainbow there's a pot of that 14K
Golden lovlies shine on me today
At the end of every rainbow there's a pot of that 14K
Everybody get up
It's beautiful today
Well I've been talking to the moon
Conversation lives me but it always ends too soon
Tripping
Perhaps by choice
I like to feel the magic can you hear it in my voice
We don't need no steamroller
We don't even need a jet
We don't need no rapid tranzid
To show us where it's at
REPEAT CHORUS TWICE
