"Breakfast in bed"

I guess that you, got next to me
Honey you were so persuasive
I gave in much to easy
Why you want to come around here
Boy looking so fine
Let's talk about first impressions
It was the lasting kind
And I must confess the evening went straight to
My head

Cause we made love all night and then had
Breakfast in bed
Breakfast in bed, heavy on the cream
Kisses over easy and a side of everything
Breakfast in bed, loves the seasoning
May I take your order please

You must have known that I was hungry for your loving
I gave you all of my love and
Then gave you some more baby
Love deep enough to swim in
I opened up my heart and told you to come on in
Come on, come on in and let's have breakfast in bed
