I can't love anymore
Ever since the day you've been gone
My heart has turned into an empty shell
Look at me
I can't love anymore

I can't love anymore
Kisses thy just don't feel the same
They love me and I leave them
In tears and in pain
I never was like this before

And if I knew that long ago
I would feel this much sorrow
Without you by my side
You'd been more of a man
Try more to understand
Instead of hiding behind your pride

And now my heart is broken
and I'm in misery
And baby I...I can't love anymore

And darling I
I can't love
I can't love anymore
You have taken the best part of me, baby

I can't love anymore
Something deep inside me has died
My heart has been broken
Maybe that's why
I can't love anymore

Can't love anymore
Words I never thought I would say
If love is just a game then I don't want to play
Ever again in my life

And if I knew that long ago
I would feel this much sorrow

Without you by my side
You'd been more a man
Try more to understand
Instead of hiding behind your pride

And now my heart is broken
And I'm in misery
And baby I...
I can't love anymore

And baby I...
I can't love anymore
And darling I...
I can't love anymore

And I can't love
I can't love anymore

Can't love anymore

You have taken the best part of me baby
(Can't love anymore)
Baby can't you see I'm crying

You left me alone and I feel
I think I'm dying

I'm down on my knees
I'm beggin' you please
Come on back
Come on back
Baby, please

(Can't love anymore) x 3

Come on back, baby baby
I can't love anymore
I can't love anymore
Baby

Oh, baby baby
Can't you see
Can't you see I'm cryin'
I'm down on my knees

(Can't love anymore) x 2
