Love's fever comin on strong
I don't want the fire without the flame no
Mother Nature gave me two hands to hold you
I'm not talkin pressures or material gains

But M-O-N-E-Y
Never did a thing for L-O-V-I-N
I'll never understand what people's heads are in oh
Ask me what I need
I need your lovin'
And that's the bottom line
I need your lovin'
Or just a little time
I need your lovin'
And that's the bottom line
I need your lovin'
Or just a little time
This will do
Just a little lovin'
This will do
Just a little love
Just a little lovin'
This will do la la la la
Just a little lovin'
This wil do L-O-V-I-N
Just a little lovin'
Me and you

Love's comin' so glad you're mine
I don't want your rhythm without your rhyme no
Easy feelin' ooh your love keeps getting better
Say you'll leave me never
And together we'll fly

Cause M-O-N-E-Y
Never did a thing for L-O-V-I-N
I feel it in my bones
That you and I can win oh
Ask me what I need
I need your lovin'
And that's the bottom line

I need your lovin'
Or just a little time
I need your lovin'
And that's the bottom line
I need your lovin'
Or just a little time
This will do
Just a little lovin'
This will do
Just a little love
Just a little lovin'
This will do la la la la
Just a little lovin'
This will do la la la la la la
Just a little lovin'
This will do

Cause M-O-N-E-Y
Never did a thing for L-O-V-I-N'
I feel it in my third eye
Love will never end no
Ask me what I need
I need your lovin'
And that's the bottom line
I need your lovin'
Or just a little time
I need your lovin'
I need your lovin'
Or just a little time
This will do
Just a little lovin'
This will do baby
Me and you yeah
Just a little lovin'
This will do
Just a little lovin'
Me and you
L-O-V-I-N
