Love me down easy and then say goodbye  
Love me down easy and I'll try not to cry  
Even if it means I have to wait until my next life  
I don't care it's just something to do  
Like the petals of five dozen roses with white chocolate  
And champagne in bed that's how I think of you

'Cause you're sweeter than the taste of a cherry so rare  
When you love me, love me, love me down easy

Love me down easy and then savor each kiss  
Love me down easy for it's you that I miss  
Even if it means I have to wait beside my telephone  
When all the while I know it might not ring  
Call it foolish I think not, for false pride is a sin and  
baby  
You know that you've been my everything

'Cause you're sweeter than the taste of a cherry so rare  
When you love me, love me, love me down easy

I think it's time for you, for you to call my name  
Don't say a word darling, there's no need to explain  
'Cause you're sweeter than the taste of a cherry, of a  
cherry so rare  
And no matter, no matter where you are just call my  
name  
Say the words darling and I'll be there

You turn my head around  
When you love me down, easy baby, easy baby, easy  
lover  
Baby lover, baby baby baby lover, easy lover, easy  
lover  
Baby lover, baby baby baby lover, easy lover, easy  
lover  
You turn my head around  
When you love me down easy, easy, easy lover, lover,  
lover
