Visit "[Lover's Lane](#)" on MotoLyrics.com

Come on baby take a ride with me down to lover's lane
Half a mile from heaven you'll be glad you came

Words cannot describe the way if feel for you
The closest thing that I can say is that you make my
love sigh
A drop of tenderness at a [Incomprehensible] baby
Sprinkle all your love on me, you're my fantasy

Sweet like honey to a bee, baby you arrested me
Got me sharin' all my secrets and my fantasies, come
on
Make me halla baby in my solitude
Take me on a ride down lover's lane, I'll go with you

Let me take you down with me to lover's lane
Half a mile from heaven you'll be glad you came
I don't need nobody baby, no one else but you
I made a private reservation just for two, just for two

Livin' in a world with love becomes so blasÃ©
Sometimes I think it's necessary just to break it down
for you
Call me crazy baby but I'm still old fashioned in my
dreams
I only need one women to set my life with me

Seems like we've always been connected whether near
or far
I'd travel 'cross the galaxy to be just where you are
Make me halla sweet baby in my solitude
Take me on a ride down to lover's lane, I'll go with you

Let me take you down with me to lover's lane
Half a mile from heaven you'll be glad you came
I don't need nobody baby, no one else but you
I made a private reservation just for two, just for two

Yes, you're the best like a fantasy, I like that when you
do your thing
Play my record baby in the ring, take me down to
lovers' lane

Yes, you're the sweetest thing, I feel better when you
call my name
Sweet names to give you when you do your thing to me

Let me take you down with me to lover's lane
Half a mile from heaven you'll be glad you came
I don't need nobody baby, no one else but you
I made a private reservation just for two, just for two

Down with me to lover's lane
Half a mile from heaven you'll be glad you came
I don't need nobody baby, no one else but you
I made a private reservation just for two, just for two

Break it down for me
Break it down, break it down, down for me
Break it down for me
Break it down, break it down, down for me

Lover's lane
I'm so glad I came with you baby
No hesitation, just for two, just for two
Down with me, down with me
Nobody, nobody can do it like you do
