The first time that I met you, you drove me 85 miles per hour

You said riding with the top down made you feel so free, gave you power

I thought your eyes were deeper than any I've seen

And then you hit me with your love machine

I said could we go somewhere and just be alone?

You kissed me on my cheek and drove me home

Once is not enough, when you kissed me baby

Once is not enough, when you hold me in your arms

It's never enough, I've got to have your baby

Once is not enough, I need you 25 hours of everyday

8 days a week, 25 hours, 8 days a week

I laid awake that night baby, I tossed and turned 'til a quarter to seven

I slipped off to la la and there you were and I was in Heaven

You put your arms around me and loved me so sweet

And then you drove me down to 7th Street

You said, you've got the symptoms of someone in love

I said it's more like a heavy psyche

Once is not enough, when you kiss me baby

Once is not enough, when you hold me in your arms

I need a little more, I've got to have you baby

Once is not enough, I need you 25 hours of everyday

8 days a week, 13 months out of every year baby

Once is not enough, once is never enough, once is not enough

If I want to make love to you, I should be able to

But once is not enough, it's not enough

If I want to make love to you, I should be able to

But once is not enough, it's not enough

Once is not enough, when you kiss me baby

Once is not enough, when you hold me in your arms

I need a little more and I've got to have you baby

Once is not enough, I need you 25 hours of everyday

8 days a week, baby, baby

Once is not enough, when you squeeze me baby
Once is not enough, when you hold me baby
Once is not enough, when you please me baby
Once is not enough, I need you 25 hours of everyday
13 months out of every year baby
25 hours, 366 days a year, 8 days a week

Once is not enough, once is never enough, once is not
enough
If I want to make love to you, I should be able to
But once is not enough, it's not enough
If I want to make love to you, I should be able to
But once is not enough, it's not enough
