Did he catch my eye?
Well, is the sun up in the sky?
And ain't I a woman, say yes, I am
He made me shake it, he made me break it
When I didn't wanna break it
He's a playboy

Pinstripe suits and a rap that wouldn't quit
Carte Blanche attitude, say baby, this is it
Too raw, come to Z Casbah
And he isn't even French
He's just a playboy

So fine, you know the kind
"Makes me wanna holler, hey I'm
Throwin' up both of my hands"
Understand me when I say, yeah
I'm gonna shake it to the one
I love the best-playboy

I'm gonna break it, break it to the East and West
Serious love
When he loves me, yeah
Oh I love my playboy, got to let him in
Ooh, he's gotten under underneath my skin

Did he blow my mind
Well, is there rhythm in the time
And ain't he a clockin', say yes he is
He made me shake it, he made me break it
When I didn't want to break it
He's a playboy

Raw silk shirts and a New York leather look
Oh and did I mention that he wrote the book
Too cold or was it too bold
When he talked about his
Etchings, he's a playboy

So smooth, you know the moves
Makes ya wanna holler, hey I'm
Throwin' up both of my hands

Understand me when I say, yeah
I'm gonna shake it to the one I
Love the best, playboy

I'm gonna break it, break it to the East and West
You know I love it, baby
I'm gonna shake it to the one
I love the best, playboy

I'm gonna break it, break it to the East and West
Serious love
When he loves me, yeah
Oh, I love my playboy
Got to let him in
(Come get it girl)
Got to get him under, underneath my skin

I'm gonna shake it and I'm gonna
Give him all of my love
I'm gonna shake and I'm gonna
Give him all of my love
Serious love when he loves me
When he loves me

Is that enough love?
(Yes)
Is that enough love?
(Come get it girl)
Oh, I love my playboy
Got to let him in
Got to get him under, underneath my skin
Oh baby, I'm gonna shake it
