Yeah yo,
It's been a long time,
Wherever we start, whatever you want,
Whatever you need,
Bring it back, c'mon.

(Bring it on)
Whatever you want
(Bring it on)

Now, couldn't keep it no longer to bring it on,
You wouldn't believe what I have since I've been gone,
But I'm kinda happy that you waited for me,
And I'm kinda changed since you last saw me,
Everything I did make you proof what I got,
People thought I was west, that was it, but it's not,
It's just a start, so this the second part,
There'll be a thousand more coming dead over the
charts.

Boy you got me workin',
It feels so good,
You make me wanna get it on,
(She wants to get it on,
Then she wants to do it 'till the break of break of dawn)
Boy I must dreaming,
You give me that feeling,
You make me wanna get it on
(Mukupa so strong, I make you shit in your pants,
That's what I do, make a hit and you dance).

Whatever you want,
Whatever you need,
I be the sunlight in your life,
You can turn on to me,
Whenever you're down,
Baby I swear I'll be around.

Whatever you want, (whatever you want baby)
Whatever you need,
I be the sunlight in your life,
You can turn on to me,
Whenever you're down,
Baby I swear I'll be around.

This is the music,
You got that something,
This may be music,
Something I wanted.

Until the family Mukupa keep it keep it real,
And everybody who knows me knows what I feel,
So stop frontin',
'Cause I know you're lookin' at me,
Wanna grab me,
But you slap me,
Because you can't have me,
So baby please, get on your knees, (yeah)
I'm the girl who took out the boy MCs,
I get you better learn to treat your woman for real,
I'm gon' let you know how it feels.

Boy you got me workin',
It feels so good,
You make me wanna get it on,
(She wants to get it on,
Then she wants to do it 'till the break of break of dawn)
Boy I must dreaming,
You give me that feeling,
You make me wanna get it on
(Mukupa so strong, I make you shit in your pants,
That's what I do, make a hit and you dance).

Whatever you want,
Whatever you need,
I be the sunlight in your life, (I be the sunlight)
You can turn on to me,
Whenever you're down,
Baby I swear I'll be around. (I'll sing it to you)

Whatever you want,
Whatever you need,
I be the sunlight in your life,
You can turn on to me, (turn on to me)
Whenever you're down,
Baby I swear I'll be around (yeah baby).

Gotta get up, gotta get up, gotta get down (I'll sing it to
you baby)

Gotta get up, gotta get up, gotta get down (down,
down, down, down, down, down, down)
Gotta get up, gotta get up, gotta get down (You and
me, you and me)
Gotta get up, gotta get up, gotta get down (you and me
we got to get down)

Whatever you want,
Whatever you need,
I be the sunlight in your life,
You can turn on to me,
Whenever you're down,
Baby I swear I'll be around. (Oh someday)

Whatever you want,
Whatever you need,
I be the sunlight in your life,
You can turn on to me,
Whenever you're down,
Baby I swear I'll be around.

Would you do it, would you do it, would you do it for
me?
If it came down to it would you do it for me? (whatever
you want)
Would you do it, would you do it, would you cry for me?
If it came down to it would you die for me? (whatever
you want)
Would you do it, would you do it, would you do it for
me?
If it came down to it would you do it for me? (whatever
you want)
Would you do it, would you do it, would you cry for me?
If it came down to it would you die for me? (whatever
you want)
Would you do it, would you do it, would you do it for
me?
If it came down to it would you do it for me? (whatever
you want)
Would you do it, would you do it, would you cry for me?
If it came down to it would you die for me? (whatever
you want)
Would you do it, would you do it, would you do it for
me?
If it came down to it would you do it for me? (whatever
you want)
Would you do it, would you do it, would you cry for me?
If it came down to it would you die for me? (whatever
you want)
