

## French Kicks, The "Where We Went Off"

Lately we've been known,  
to wait until we're thrown anything.  
Still it seems,  
we know what we know,  
it's not a thing.  
If we don't stand out, straighten up,  
where will it keep us apart??

Falling into your hands,  
into my arms,  
it's where we went off,  
and it's where we belong.  
Into your hands,  
into my arms,  
and everyone .

I don't know if,  
break it down, if  
it's worth staying out all night.  
The longer it goes on,  
oh there's nothing wrong at all.

Falling into your hands,  
into my arms,  
it's where we went off,  
and it's where we belong.  
Into your hands,  
into my arms,  
and everyone.

Into your hands,  
into my arms,  
is where we went off,  
and it's where we belong.  
Into your hands,  
into my arms,  
and everyone.
