Critical Mass Lyrics (TEENAGE FANCLUB)

TEENAGE FANCLUB - Critical Mass Lyrics

When I touched your skin

I felt your heart beating deep within.

And I was sure

Everything was ?

You're in my heart

But it's the feeling that all fell apart.

Think of me; but don't believe that I was wrong.

When I switched off my feeling is when I lost control.

Couldn't say what I was needing -

Something I didn't know.

I woke up in bed

A cold sweat running down my head.

And I remembered something you had said:

(You Said) "Don't dream too long, 'cause when you
wake up

everybody's gone."

Find someone else to sing another song.

When I switched off my feelings is when I lost control

Couldn't say what I was needing -

Something I didn't know

When I switched off my feeling is when I lost control

Couldn't say what I was needing -

Something I didn't know
