Your sadness don't lie
Your feelings can't hide
You always know why
But your reasons are sly
You never deny
What you feel inside
I
I Disappear when you're not here
In my life

I can't slip away when I see your face
I lose my confusion
Your Love Is The Place Where I Come From
When I'm on my own I'm lost in space
My freedoms a delusion
Your Love Is The Place Where I Come From

My sadness don't lie
My feelings can't hide
I just can't deny
What I feel inside

CHORUS to end
