Everything Flows (Blake)

But you don't change
We get older every year
Or I don't notice you're changing
I think about it every day
And then I feel it
But only for a little while
I'll never know which way to flow
Set a course that I don't know
I'll never know which way to flow

Set a course that I don't know
Lately find it hard to keep the pace
The wind's blowing in my face
And then the feeling
But only for a little while
And I'm looking for a place to go

Set a course that I don't know
I'll never know which way to flow
I'll never know which way to flow
Set a course that I don't know
