Been bought and I've been sold
and I've forgot what I've been told
and now I need someone
Of all the stars I've ever seen
you're the sun

Hang on, hang on
Hang on, hang on
I've not forgotten all the tricks
that you've done
I just need some fun
I'm going underground to reassess
just what I've found
and all that I can do
Been blinded by the light
now I can go with a smile

Hang on, hang on
Hang on, hang on
I've not forgotten all the tricks
that you've done
I just need someone
