Could you be the one  
Who wants to turn me into something new?  
Could you be the one  
The one who has to make life fun of you

So far gone, so far gone  
I'd love to turn you on

Could you be the one  
You always complicate my thoughts of you  
Could you be the one  
You always stop for me to drive right through

So far gone, so far gone  
I'd love to turn you on

Understand my way  
I hope you will some day  
I understand my way

Did you be the one  
That wants to turn me into something new  
Did you be the one  
You always complicate my thoughts of you

So far gone, so far gone  
I'd love to turn you on

Understand my way  
I hope you will some day  
I understand my way

So far gone, so far gone  
I'd love to turn you on
