(Blake)

Somebody try to show you how to free your mind,
It's deception to the void
You couldn't even see the world ?
And it's a world left to enjoy

Some people try to fuck with you
They'll get down on your luck with you
Some people try to fuck with you
They'll get down on your luck with you

I had a ? everyone
?
?
?

You never have to sleep alone again
I've got you by my side
You know that im a man that ?
in a scottish blue ?
Some people try to fuck with you
They'll get down on your luck with you
Some people try to fuck with you
They'll get down on your luck with you

Some people try to fuck with you
Some people try their luck with you
Some people try to fuck with you
Some people try their luck with you
Some people try to fuck with you
Some people try their luck with you
Some people try to fuck with you
Some people try their luck with you
