animals
what do they like
animals
why do they fight?
animals
who are they
animals
are they here to stay?

and then i saw a dog
just siiting there on the ground
just then, rolled in a great fog
but the dog just looked around

animals
what do they want?
animals
do they like to taunt?
animals
when did they come
animals
are there lots, or just some

and then i saw a dog
just siiting there on the ground
just then, rolled in a great fog
but the dog just looked around

and then i saw a dog
just siiting there on the ground
just then, rolled in a great fog
but the dog just looked around
