I can't fall asleep I wanna try  
The only way I'll sleep is if I die

I need a little luxury  
Put your arms around me  
And I'll feel better naturally

Thinking about everything I do  
Wide awake and thinking about you

I need a little luxury  
Put your arms around me  
And I'll feel better naturally

I'm afraid that I care and I want you there

(solo)

I need a little luxury  
Put your arms around me  
And I'll feel better naturally  
And I'll feel better naturally  
And I'll feel better naturally
