About myself-what do you wanna know  
Am I wrong beneath this stupid little song

I freak out anytime that you freak out every time I have  
attitude  
Anytime and I think I wanna die

I don't care, what you think about me  
Go to hell I'm wanting you to know I tell the truth

But something inside me freaks out anytime that I think  
of you  
Anytime and I think I'm gonna die

I don't cry every time that I see you.  
I'll whine and I'll write another tune

(solo)  
Alright

Go to hell  
I'm wanting you to know I tell the truth but something  
inside me  
Freaks out every time that I think of you  
Anytime and I think I wanna die  
Oh I freak out anytime that you freak out every time  
I have attitude anytime and I think I wanna die
