Sitting back and doing nothing  
I could hate you  
I don't think I will

If you ever see me anywhere  
And you know me  
Please walk away

Funny face  
Why do you look after me  
Funny face  
Why do you care

Doing everything I wanna do  
Maybe someday  
You will be there

I thought we would always get along  
I like everyone  
They all hate me

Funny face  
What's wrong with you anyway  
Funny face  
Why do I care

You want everything from me  
But you won't get it

I did everything I could  
But now I'll just forget it

Funny face  
What's wrong with you anyway  
Funny face  
Why do I care
