#### Verse 1

When I'm driving down in an H.B. street,  
And that cool sea air smells so sweet,  
I think of standing by your side,  
And I get this smile,  
I can't hide

#### Pre-Chorus 1

The way I feel about you,  
Won't stop cause I don't want to,  
Girl can't you give me one more chance,

#### Chorus

Tell me what you want you hear from me,  
To make it all so clear,  
That I can be the one you need,  
And if you let me I'll do anything,

#### Verse 2

Seems like I live on highway 1,  
All day just running from the sun,  
Drowning bad memories in my head,  
Just thinking back to when you said,

#### Pre-Chorus 2

That you'd love me forever,  
Now you just say whatever,  
Girl can't you let me back inside,

#### Chorus

Tell me what you want you hear from me,  
To make it all so clear,  
That I can be the one you need,  
And if you let me I'll do anything,

#### Bridge

Break down the fences of your fears,  
(It used to be just you and me)  
Remember how it used to be,
