"Light Up"

What would I do differently with two kids on my hip?
Let them say what they will, 'cause they will anyhow.
Let them say what they will, 'cause they will anyhow.

I'm the age you were then,
What goes through your mind?
Find some success and reduce the worry on your
babies' minds

Let them say what they will, 'cause they will anyhow.
Let them say what they will, 'cause they will anyhow.

Lay back and light up
Lay back and light up
Without any guilt
Lay back and light up
Lay back and light up
Without any guilt

??

Well I've searched for myself... what would I find?
Let them say what they will, 'cause they will anyhow
Let them say what they will, 'cause they will anyhow

Well eggshells are not easy to hold
We uncurl and unwind when we sleep side by side
Let them say what they will, 'cause they will anyhow
Let them say what they will, 'cause they will anyhow

Lay back and light up
Lay back and light up
Without any guilt
Lay back and light up
Lay back and light up
Without any guilt
Lay back and light up
Lay back and light up
