You have to become what you fancy

Paperback head, you get carried away
Stitch up your spine, keep the suitors away
You must draw your own name
Must sift your affairs, must frame a, a material girl

Wild fires you must remit

Can't stand the smoke, pull the sheets down low
Rope up your mind, keep the suitors in line
Must draw your own name, must sift your affairs
Must frame a, a material girl, a material girl

I gasp like sugar and spice
I gasp like sugar and spice

Who better than you, better than you
Who better than you, better than you
Who better than you, better than you
Who better than you

A paperback head, you get carried away
Stitch up your spine, keep the suitors away

Can't stand the smoke, pull the sheets down low
Rope up your mind, keep the suitors in line
You must draw your own name, must sift your affairs
Must frame a, a material girl

A material girl, a material girl
A material girl, a material girl
A material girl, a material girl
A material girl
